Introduction

ASAN Medical Center (AMC) is the largest medical institution in Korea with a total of 2,700 beds. Having performed 57,000 highly sophisticated surgeries per year, AMC ranks No. 1 in the number of surgeries of thirty(30) major diseases as well as in the number for six(6) most common cancers and organ transplantation.

As the advanced medical care of AMC has received attention by the international mass media since its opening in 1989, the number of overseas patients from Russia, Japan, China, Mongolia, and the Middle East countries visiting Korea for treatment is continuously increasing.

The International Healthcare Center (IHC) of AMC is doing its best to offer optimal treatment to each international patient.

AMC's Strengths

Leader in organ transplantation

- First in the world to succeed in performing living donor liver transplantation(LDLT) and the donor exchange program for adult LDLT
- The world's highest post-operative survival rate

AMC Cancer Center - suggesting a new model for customized treatment

- Unrivaled leader in the surgery for nation's top ten(10) common cancers
- Established Korea's first multidisciplinary cancer clinic with cancer specialists in internal medicine, surgery, radiation oncology, and radiology

World leader in heart disease treatment

- Consisted with the departments of Cardiology, Thoracic & Cardiovascular Surgery and Vascular Surgery
- Operates world-class immediate admission room, cardiac examination room, operating room, and hybrid-room

AMC Children's Hospital

- Offering optimal hospitalized care to pediatric patients from newborns to adolescents
- Coordinating care with specialists while ensuring psychological stability in the exclusive pediatric ward

Pediatric Emergency Center

- Korea's first pediatric emergency center
- Minimizing risks caused by infection and psychological shock

Cancer Patients Emergency Center

- Opened Korea's first cancer emergency center

'ASAN in Asia' Project

- Aiming to enhance the medical environment of the underprivileged countries through education, medical technique transfer, and medical volunteering

Main Services of IHC

The International Healthcare Center provides in-hospital concierge service through coordinators. They offer translation, guidance, and counseling services throughout the overall medical process from reservation, treatment, medical payment, examination and administration.

- ✓ Providing patients with convenient customized services such as rapid examination and explanations of its result
- ✓ Offering emergency counseling via 24-hour hotline translation service even after office hours
- ✓ Assisting in issuing English documents regarding treatment when requested to a doctor
- ✓ Replying to overseas patients about the possibility of treatment, treatment plans, and et cetera via email

Translation : English, Chinese, Japanese, Russian, Arabic, Mongolian
